

April 17, 2010

Dear Region Commissioners, Governance Committees, and USADB Board;

First of all, CAAD wants to thank Justin Anderson, Regions, and USADB Board to welcome CAAD for the USADB Retreat at Utah in October.

CAAD is struggling to comprehend and to figure out the purpose for CAAD to attend USADB Retreat, because CAAD was eliminated and handcuffed to voice and to vote at USADB House of Delegates. Will CAAD be still handcuffed to voice and vote at USADB Retreat, too?

In this writing, CAAD is requesting the Regions, Governance Committees, and USADB to investigate the Region's credentials in both CAAD and CBAD shown below:

Region's Credentials

CAAD	CBAD
65 years old and has 65 years of CAAD History, Hall of Fames, and Statistics.	1 year old
CAAD has healthy Financial.	Unknown Financial.
CAAD promptly reported 65 years of CAAD Meeting Minutes and Annual CAAD Audited Financial Reports every year that is in CAAD's property.	CBAD's first Meeting was deception. Some of the Delegates recorded in CBAD's first meeting confirmed that they were not at the first CBAD meeting and had no idea how their names was listed. CBAD devised CBAD Meeting Minutes, devised USADB Registration Form, and formulated CBAD/USADB Registration Deadline Date.
Incorporated with State of Illinois and is in good standing.	Unknown incorporated.
CAAD has the valid certificated 501c3 letter from IRS and is in good standing with IRS since September 13, 1988.	CBAD does not have 501c3. CBAD is using Indiana Bass Fishing organization's 501c3 and is falsifying the CBAD Bylaws, USADB, and IRS that CBAD has its own 501c3.
CAAD Officers were elected in 2009.	CBAD Officers were not elected.
CAAD formed in according to Parliamentary Procedures.	CBAD did not form in according to Parliamentary Procedures.
For 65 years, CAAD Bylaws is created by CAAD BOD.	CBAD copied CAAD's Bylaws with very few changes that were created by CAAD's BOD, not by CBAD.
CAAD legally is a valid incorporated by State of Illinois and 501c3 organization.	CBAD is not legally a valid 501c3 organization.
CAAD met all the credentials that CAAD is a solid, trustworthy, and reliable organization. Those credentials will be always in CAAD's property.	CBAD did not meet all the credentials, but USADB instantly granted CBAD without investigating and verifying.

CAAD is inquiring why did USADB instantly approved CBAD without investigate and verifying:

- 1) If CBAD has met the Region credentials before ratifying and incorporating into USADB Bylaws?
- 2) Based on what document(s) to valid CBAD's status of 501c3?

CAAD appeals that both the Regions and Governance Committees to investigate the Parliamentary Procedure practiced at 2010 USADB House of Delegates shown in Chart below.

USADB House of Delegates

CAAD	CBAD
CAAD was incorporated in the eyes of USADB Bylaws.	CBAD was not yet incorporated into USADB Bylaws.
CAAD submitted USADB Delegate Credential on March 22, 2010.	CBAD did not submit USADB Delegates Credential Forms to some of CBAD Teams.
USADB notified and instructed CAAD via the email that CAAD only can voice, but can not vote.	USADB granted and allowed to add "last minute" illegal CBAD Delegates to voice and vote after the Deadline Date of March 22, 2010 and before being ratified and incorporated into USADB Bylaws.
CAAD was handcuffed with no voices and votes. It was re-voted three (3) times to handcuff CAAD from voting and voicing.	USADB granted and allowed CBAD Delegates to voice and vote before being ratified and incorporated CBAD into USADB Bylaws.
Proper Parliamentary Procedure for CAAD/CBAD motion was referred to Governance Committee. USADB rescinded CBAD/CAAD motion from the Governance Committee because of USADB decided, labeled, and pointed the finger at Paige Thompson, Christina Costello, and Mark Corson for being "bias."	Proper Parliamentary Procedure for CAAD/CBAD motion should have voted to ratify CBAD first before allowing and/or to grant CBAD Delegates to voice and vote after CBAD is ratified, but it did not happen. Instead of that, USADB/CBAD devised for CBAD Delegates to vote on CBAD/CAAD motion.
CBAD/CAAD motion was re-voted two (2) times. The first vote was 16-9, but it was re-vote again that should be 17-9, but it was announced 17 - 7 instead.	Without ratifying and incorporating CBAD into USADB Bylaws first , USADB practiced improper Parliamentary procedure to grant and to allow CBAD Delegates to voice and vote.

Fact Findings:

- 1) USADB Deputy Commissioner declared and rescinded CAAD/CBAD motion from the Governance Committee because USADB Deputy Commissioner had decided, labeled, and pointed the finger at Paige Thompson, Christina Costello, and Mark Corson for being "bias."
- 2) CBAD was not yet incorporated into USADB Bylaws, but USADB granted and allowed CBAD Delegates to vote **before** CBAD was ratified and incorporated into USADB Bylaws.

Questions:

- 1) Who had decided that Governance Committee is "bias?"
- 2) On what ground did USADB decide that the Governance Committee is bias?
- 3) On what finding did USADB reach a verdict that the Governance Committee is bias?
- 4) Should CBAD Delegates be granted and allowed to vote before being ratified and incorporated into USADB Bylaws?

To all Regions and Governance Committees: CAAD appeals that the Regions and Governance Committees to investigate, to validate, to hear another side of a story, and **to justify without being intimidated** by USADB. CAAD requested all Regions and Governance Committees to see the documents in **Black and White**, and not to base **only** on hearsay.

Sincerely yours,
Bonnie R. Schwebke
CAAD Commissioner
